

C2 Pipeline Mission, Vision and Fundamental Principles

Mission

C² Pipeline in the Wayne State University College of Nursing inspires and empowers students to prepare for college and academic success through immersive explorations of STEM fields in health that give them the technical skills and knowledge they need to engage in real-life argument, reasoning, problem solving, planning and collaboration.

Vision

C² Pipeline in the Wayne State University College of Nursing is the pre-eminent pre-college university model for graduating high school students with a plan for the future and the skills, confidence, knowledge, and attitude necessary to positively impact their lives and the lives of others.

Foundational Principles

1. **PROGRAM**: Provide quality STEM and Health Care learning experiences for all students.
2. **COLLABORATION**: Structure and implement program through an interprofessional and interdisciplinary model.
3. **FUNDING**: Leverage resources to support and sustain the C2 Pipeline to benefit future health care and STEM workforces.
4. **CURRICULUM**: Align to Common Core, Next Generation Science Standards and Michigan Specific Content Expectations, based on best-practice model and demonstrated effectiveness.
5. **STUDENTS**: Offer individualized mentoring and be advocates for C2 Pipeline student participants.
