WSU C2 Warriors
College Experience

Goals

• To Promote WSU and the Partner Programs
• Give Students an Intense College Experience to better prepare them
• Empower and Educate Students on Diabetes
• Career Exploration
• Learn to Study and Live in unique and sometime uncomfortable situations

• Teachers/Counselors: To allow Secondary teachers the experience to see how what they do has an impact on college learning
• Teachers/Counselors: To better promote health care IPE and Wayne State University to their students
• Teachers/Counselors: Strengthen the linkage between regular school and the C² Pipeline Program
Needs

IPE Team Sponsors

• Mentorship of a group (5 students) for about 10 hours over the two week period. The mentorship would be done on campus. It would not have to be the same person, it could be a group/team of people from your organization.

• Attendance of the sponsor(s) at the presentation Gala on Thursday, July 17th.

• Attend a Pre-Meeting in June to go over the program, see the curriculum being used and the rubrics for the competition. This will be during the day and last approximately 1 ½ hours.
Sponsor Benefits:
• Each of the IPE teams will be named after the organization. This will help to promote a sense of team within the IPE as well as give marketing and visibility to the sponsor. Students will be able to say for example that this summer I was in the School of Medicine and belonged to the “XZY Team”.
• Recognition as a Sponsor in all Marketing Materials.
• Opportunity for your Sponsored Team to compete against other teams in the industry.
• Recognition at the Gala Event on Thursday, July 17th
WSU C2 Warriors
College Experience

Other Needs:

• Volunteers
  • Application Process and Student Selection
  • Members of the “Shark Tank” Panel
  • Specific or unique Skill they would like to share/present
